

# Slider Base Plates

Available for all **iFlex** products, Slider Base Plates allow a run of barrier to be conveniently slid out of position for access purposes.

#### CONVENIENCE & ACCESSIBILITY

In areas where maintaining a run of barrier is essential for guidance and segregation purposes, slider base plates allow convenient temporary access to key areas.

#### FULLY INTEGRATED

Slider Base Plates are designed to work with Pedestrian and Traffic posts from **A-SAFE's** innovative **iFlex** range, offering customers ultimate choice and flexibility.

#### FAST & SIMPLE

With no tools needed to use them, slider base plates offer the simplest, most efficient access to important locations, meaning maximum productivity is sustained.

#### QUALITY & CONFIDENCE

Tested and independently verified by TÜV, all **A-SAFE** products come with the reassurance of being the strongest, most innovative products from the global industry leaders.

“**A-SAFE** has proven time and again that the plastic barriers are superior to steel in all areas, offering my team peace of mind that what we are installing is not only doing its job of protecting the workforce and machinery but also cost-effective in the sense that repairs, maintenance and damage to the barriers, vehicles and equipment is negligible.”
