## J Runner- DHT Technical Datasheet

### Description

J Runner- Deflection Head Track (DHT) is commonly used as a wall track for the top fixing of the Shaftwall System. The sections provide a friction fit for the stud and also provide a slip joint to allow any movement of the structure.

### Primary Data

<b>Drywall Product</b>	J Runner- Deflection Head Track (DHT)
<b>Standard Compliance</b>	ASTM C645
<b>Drywall System</b>	Applicable for Shaftwall Systems
<b>Standard Length (mm)</b>	3000 (Other lengths available on request)
<b>Coating</b>	AZ150 Zinc- Aluminium Coating / Z180/Z275 Zinc Coating
<b>Standard Compliance</b>	ASTM A792 / ASTM A653
<b>Steel Grade</b>	G2 Min. Yield Strength: 270 Mpa Min. Tensile Strength: 330 Mpa
<b>Material</b>	Galvanized Steel

### Technical Data

Part No.	Thickness (mm)	Width (mm)	Length (mm)	Flange (mm)
PN575 / 599	0.80	64 ,102 & 152	3000	75 x 50
