## Resilient Furring Channel Technical Datasheet

### Description

Designed for use as a sound isolating system to reduce sound transmission.

### Primary Data

<b>Drywall Product</b>	Resilient Furring Channel
<b>Standard Compliance</b>	ASTM C645
<b>Drywall System</b>	Applicable for Partition & Liner Systems
<b>Coating</b>	Z275 Zinc Coating
<b>Steel Grade</b>	G2 Min. Yield Strength: 270 Mpa Min. Tensile Strength: 330 Mpa
<b>Material</b>	Galvanized Steel

### Technical Data

Part No.	Thickness (mm)	Length (mm)
PN581	0.55	3600
