

What is Indonesian natural stone and how it is used?

Indonesia's volcanic landscape produces an array of beautiful stones that cannot be found anywhere else in the world. They provide homes and gardens with a touch of exotic style reminiscent of the tranquil atmosphere you experience when visiting Indonesia. Think of the perfectly polished sukabumi pool tiles that pave the swimming pools at luxurious Balinese resorts and the [elegant dark lava stone](#) that adorns Indonesia's many temples.

Indonesian natural stone can be used both inside and outside your home to recreate the gorgeous features of Indonesian architecture and establish a relaxing vibe.

We export a range of premium Indonesian stones, including:

- **Green sukabumi stone;**
- **Sandstone**
- **Limestone;**
- **Basalt;**
- **Lavastone; and**
- **Mosaics.**

Each of these stones has a unique aesthetic and can be used for different purposes. The main uses of Indonesian natural stone are:

- **Pool tiles to adorn natural stone pools**
- **Stone walkways**
- **Indoor and outdoor natural stone walls**
- **Stairs**
- **Indoor and outdoor natural stone floors;**

- Patios
- Stepping stone features.

What are the advantages of using Indonesian natural stone ?

Indonesian natural stone comes in many varieties and each offers unique properties that make it the optimum choice for interior and exterior features. Some of the advantages of choosing Indonesian natural stone over stone imported from other countries include:

- **Aesthetic:** Indonesian stone will give your home an elegant and sophisticated look that puts it in a class above other natural stone.
- **Competitive price:** Indonesian natural stone, in particular [Indonesian sandstone](#), is more cost-effective than other sandstone varieties, meaning you can do more with your budget.
- **Impermeability:** Several types of Indonesian natural stone don't require sealing. If you buy [green sukabumi stone](#) or our high quality sandstone, you'll know that what you're building will last a lifetime.

What services does we provide?

We provide a complete service for our customers. After your initial enquiry, we discuss the requirements of your project and your delivery timeframe. Based on this information, we provide you with a comprehensive quote.
